These 12 ~~photostated~~ <sup>photostated</sup> tables, prepared by the HO, Section of Industrial Goods, <sup>seem to be parts of two</sup> monthly reports on the fulfillment of the plan for improving the supply to rural populations, the preferential supply for key enterprises, and ~~the~~ the turnover in sales agencies.

The document ~~is~~ <sup>is</sup> incomplete. The report for each month, <sup>apparently should</sup> consist of two tables. For Brandenburg and Berlin only the reports for February are included. Reports on Sachsen-Anhalt for January and February seem to be complete. For Thuringen, only one month is covered, but no indication is given which month it is. For Mecklenburg there is only one table of one month.

The tables are broken down by districts and sales agencies. All amounts are given in thousand DM.
